## 24x7 Support

We are on duty to aid you with all types of inquiries about our products and services.

# Support Report

if you need to chose convenient hosting company and you don't know How to do this, let me tell you that you need to make Technical Support as most important standard to determine the company you will dealing with, because Any web hosting plan from any reputable web hosting company will fit your needs, but you will find the difference form company to another is the quality of their technical support. Some companies will be easy to contact, some won't. Some will be helpful, some won't. Some will be friendly, some won't.

The report below Contains two section first one is response Time Report and second one is Support Channels to help you to make a right decision about our technical support quality.

### **Video Guides**

Learn quickly the ideal way to revise a file or import a database via our line of step by step video tutorials.

### **A F.A.Q. Section**

Our Help Center incorporates a long range of Frequently Answered Questions that deal with all the elements of our Web Control Panel.

### **A Detailed FAQ Repository**

Throughout the years, we have gathered a vast database of questions, regularly asked by our users. We have connected them with the most practical answers supplied by our support engineers in one exhaustive Frequently Asked Questions repository, available in our Web Control Panel.

### **Informative Answers**

Each answer to a routinely asked question in the Help section has been supplied by our technical support engineers who have 5+ years of experience in the Linux shared web hosting field. If you don't find a answer to your question, just submit a support ticket and a technical support engineer will get in touch with you as quickly as possible.

### **Zero Waiting Time**

With our knowledge base, you don't need to wait to obtain the answers to your questions. Everything is already listed in the easy-to-use FAQ section. All you need to do is type in the question or problem that you have and our clever software will offer you the best feasible answer.

## AS Web Hosting (Cheap and powerful Hosting Services)

---

### **A Ticketing System**

Our client support available 24 hours to answer your tech queries. Expect a solution within maximum one hour after you have posted the ticket.

### **1 hour ticket response**

We are specialized in offering a swift and accurate reply to each customer support ticket posted by a customer. Our professional help desk team members will examine your inquiry and will offer you the most effective option. We offer a 1-hour response time guarantee for all tickets. Actually, our average support ticket response time has proved to be 20 minutes.

### **A Top-Quality Client Support Service**

We've got a team of web hosting support professionals who are eager to answer all your requests whenever you require support. Most of our help desk team members have lots of years of experience in the Linux shared web hosting sphere, so you can constantly depend on prompt and exhaustive answers to your questions.

### **An Easy-to-Browse Help Center**

Included in the Web Control Panel is an easy-to-navigate Help section, which features different information sources. You can search through a routinely updated knowledge base offering web hosting account management articles and web site management articles, watch the step-by-step video tutorials or check our F.A.Q. repository.
